

Precision Series by BEST

Traditional aesthetics. Proven durability.

The Precision Series combines architectural appeal with the strength and reliability you expect from BEST. These heavy-duty, BHMA A156.3 Grade 1, crossbar-style exit devices are ideal for glass door, existing crossbar, and historical applications where aesthetics are equally important with security and performance. Top-grade materials and architectural finishes ensure the beauty and durability of PRECISION's Precision Series Exit Devices.

Rugged strength and rich design.

The Precision Series is aesthetically appealing and extremely durable. With rugged components machined to fine tolerances, this exit device provides consistent reliability and security. Simple installation, minimal maintenance and classic lines are the hallmarks of the Precision Series.

- **Proven security.** Built to ANSI Grade 1 standards, for proven security you can trust.
- **Heavy-duty construction.** An investment cast chassis and uncompromised materials ensure premium protection and performance.
- **Traditional appearance.** A range of architectural finishes and traditional design deliver security in an aesthetically pleasing form.
- **Flexible installation.** The Precision Series active case mounting holes align with PRECISION's 2000 Series, allowing the two systems to seamlessly integrate for greater flexibility. Please specify desired handing when ordering.

Designed to fit beautifully into any architectural aesthetic while delivering the durability and performance, the Precision Series provides the ideal form and function for glass door and historical applications.

The BEST Precision Series sets the standard for premium-quality, crossbar-style exits.

Combining aesthetics with performance.

The Precision Series incorporates reliable security and durability with a pleasing aesthetic compatible with any setting.
