

HALF SURFACE TEMPLATE HINGES WITH CONCEALED SWITCH

Size: 5"

DOOR PLATE ASSEMBLY

Contractor should be cautioned to prevent mortar from interfering with wiring.

NOTES:

- 1 0.750 diameter is the recommended hole size for switch housing clearance.
- 2 It is suggested that the hinge be mounted in the center or lower position on the door, rather than the top.
- 3 Switch mounts in jamb leaf. Arrangement for R.H. door shown. Specify hand when ordering.
- 4 Use JB-2R Junction Box. See Template T90-38.

DO NOT SCALE

CLASS NO.		(A)	(C)	(E)	(F)
Steel Hinges	Gauge of Metal	Jamb Leaf	Door Leaf Offset	Outside Diameter	
CSCB173	0.146	2 1/16	9/16	0.669	1.218
CSFBB173	0.146	2 1/16	9/16	0.669	1.218
CSCB1910	0.146	2 1/32	17/32	0.580	1.218
