New Inside Escutcheon for B.A.S.I.S.® G, B.A.S.I.S.® V, Keypad EZ, NT500, IDH Max® and Stanley Wi-Q™ Technology Locksets

Stanley Security Solutions customers will notice a positive change in the functionality and appearance of the inside escutcheon when ordering B.A.S.I.S. G, B.A.S.I.S. V, NT500, Keypad EZ, IDH Max, and Stanley Wi-Q™ products. In an effort to allow customers to provide their own AA style batteries, we have completely redesigned the inside escutcheon. This redesign allows for increased battery life by allowing up to eight batteries, and reduces cost by allowing the customer to supply off the shelf batteries. The new look improves aesthetics with a new streamlined look and the removal of the battery door. (The photo at the right is the inside escutcheon of a cylindrical lockset.)

Stanley will ship a 4-cell battery holder, with replaceable AA batteries, as standard with each lock purchase. Customers will have two additional battery options: 1) Locks can be ordered with an 8 cell battery holder, also complete with replaceable batteries. 2) Locks can also be ordered with the 4-cell shrink wrap battery pack that has shipped for years. Regardless of the option selected, no additional parts or changes are required to the lockset as the new design will accommodate each of the three battery options shown below.

4 Cell Battery Holder (ships with 4 AA Batteries) - # 3122700

8 Cell Battery Holder (ships with 8 AA Batteries) - #3122867

4 Cell Shrink Wrap Battery Pack - # VPDBB

This new design will start shipping with all orders in the next few weeks. Customers will begin seeing it on locks as the inventory of finished locks turns over. This change affects all B.A.S.I.S.® G/V, Keypad EZ, NT500 offline, Stanley Wi-Q™ and also the IDH Max® product lines, for both mortise and cylindrical trim. Due to the enhancements with this new design, the existing style inside escutcheon, (with the square battery door) has been discontinued.

A retrofit kit is available for customers who want to update their existing locksets to accept the new battery holder options. This kit is available for all current offline locks listed above, except IDH Max locks which do not require batteries. The retrofit kit will also work with the discontinued 30H mortise chassis style. This retrofit kit is not compatible with the discontinued V-Series offline locks. All retrofit kit ordering information is listed on page 2, including current PL58 list pricing. The retrofit kit installation instructions are documented in Technical Publication # T83314 and shown on pages 3 & 4 of this announcement.

Please contact the Electromechanical Technical Support department with any questions or comments by calling (800) 392-5209.

PRODUCT & LITERATURE ANNOUNCEMENT**

Retro Fit Kits for New Inside Stamped Escutcheon (always ships with 4 cell battery holder)							
Mortise Kit	Function		Finish	Screw Type		Door Thickness	
45 HG/HBV/HZ/HN/HQ	DV/INV	TV/LV	605	Phillips Head (STD)	Security Head (SH)	1.75 - 2.25 (STD)	2.5 - 3.0
45 HG/HBV/HZ/HN/HQ	DV/INV	TV/LV	606	Phillips Head (STD)	Security Head (SH)	1.75 - 2.25 (STD)	2.5 - 3.0
45 HG/HBV/HZ/HN/HQ	DV/INV	TV/LV	612	Phillips Head (STD)	Security Head (SH)	1.75 - 2.25 (STD)	2.5 - 3.0
45 HG/HBV/HZ/HN/HQ	DV/INV	TV/LV	613	Phillips Head (STD)	Security Head (SH)	1.75 - 2.25 (STD)	2.5 - 3.0
45 HG/HBV/HZ/HN/HQ	DV/INV	TV/LV	619	Phillips Head (STD)	Security Head (SH)	1.75 - 2.25 (STD)	2.5 - 3.0
45 HG/HBV/HZ/HN/HQ	DV/INV	TV/LV	625	Phillips Head (STD)	Security Head (SH)	1.75 - 2.25 (STD)	2.5 - 3.0
45 HG/HBV/HZ/HN/HQ	DV/INV	TV/LV	626	Phillips Head (STD)	Security Head (SH)	1.75 - 2.25 (STD)	2.5 - 3.0
Example Nom String	45HEKT-Q-TV-606-2~1/2-SH (This kit is for a wireless 45H lock on a 2.5 thick door with Security Head screws)						
	45HEKT-DV-626 (This kit is for a non-wireless 45H lock on a standard door with standard Phillips screws)						
Cylindrical Kit	Function		Finish	Screw Type		Door Thickness	
93/94/95 KG/KBV/KZ/KN/KQ	DV (STD)	N/A	605	Phillips Head (STD)	Security Head (SH)	1.75 - 2.25 (STD)	N/A
93/94/95 KG/KBV/KZ/KN/KQ	DV (STD)	N/A	606	Phillips Head (STD)	Security Head (SH)	1.75 - 2.25 (STD)	N/A
93/94/95 KG/KBV/KZ/KN/KQ	DV (STD)	N/A	612	Phillips Head (STD)	Security Head (SH)	1.75 - 2.25 (STD)	N/A
93/94/95 KG/KBV/KZ/KN/KQ	DV (STD)	N/A	613	Phillips Head (STD)	Security Head (SH)	1.75 - 2.25 (STD)	N/A
93/94/95 KG/KBV/KZ/KN/KQ	DV (STD)	N/A	619	Phillips Head (STD)	Security Head (SH)	1.75 - 2.25 (STD)	N/A
93/94/95 KG/KBV/KZ/KN/KQ	DV (STD)	N/A	625	Phillips Head (STD)	Security Head (SH)	1.75 - 2.25 (STD)	N/A
93/94/95 KG/KBV/KZ/KN/KQ	DV (STD)	N/A	626	Phillips Head (STD)	Security Head (SH)	1.75 - 2.25 (STD)	N/A
Example Nom String	9KEKT-Q-DV-606-SH (This kit is for a wireless 9K lock with Security Head screws)						
	9KEKT-DV-626- (This kit is for a non-wireless 9K lock with standard Phillips screws)						
Replacement Battery Options			Part #	Description	List Price		
			3122700	4 CELL BATTERY HOLDER ASSY			
			3122867	8 CELL BATTERY HOLDER ASSY			
			VPDBB	Replacement battery pack			
Options to order shrink wrap or 8 cell battery holder with new lockset							
Part #	Description			Add On			
4SW	4 CELL SHRINK WRAP BATTERY PACK						
8CE	8 CELL BATTERY HOLDER ASSY WITH BATTERIES						

Sincerely,
